TWIB NOTES 2020 - 2021

Highlights - Lowlights - Comments – Observations

WEEK 1 EngineersôClub President Jeremiah King throws out the first ball and breaks the streak of throwing a strike as he leaves the 5 pin. The ñEyeòball will have to wait until next season to get its mojo back! It seems a little strange to everyone to have only ten teams, but that the result of the pandemic, but they also know we are at a house that appreciates leagues. The highlight of the week is a 300 game shot by (who else?) Kirt Ervin, who apparently likes Tropicana, but, it was the only game he won. One of the best parts of the week was NO BLINDS. The 50/50 was won by Joe Hartmann, who was lured back in spite of his earlier decision to sit out, so we guess he was glad to bowl, NOW. Achievements: CLEAN Game shot by Mike Augustine (223); Vicki LaRose bowls a career-high 185 game; Ken Munder picks three 3-10 splits, one each game. Other ñachievementsò: DURNEYôs - Janine Prost-Domasky in game 2, frame 9 (For those unaware, a DURNEY is a gutter after a spare or end of a sequence of at least 2 strikes, in the previous frame, followed by picking the spare on the full rack. Itôs named for Gary who was so adept at doing it often.) ñMr. Consistencyòwas won by Greg Mueller with shot 194-191-191. ñMr. Inconsistencyò was won by Russ Hoffmann who mistakenly entered Donna instead of Dotty in the lane computer; he really misses Ramin not being there. How do Dey do dat? Marty Koeller bowls 107 under average for the night but still sweeps 4 points from Kent Burgess.

WEEK 2 The highlight of the week is an 802 series (279-269-254, with 28 strikes nad no misses) shot by (who else?) Kirt Ervin, who still likes Tropicana after his perfect game last week. No one else had a clean game. The 50/50 was won by Janine Prost-Domasky. Other notables: New bowlers Noelle Gaspard and Keith Konradi started their Engineers Club careers. Keith picks a 5-6 split by hitting the 6 on the right side, but since he's new he maybe doesn't know your'e supposed to go between the 2 pins. Other ñachievementsò: ñMr. Consistencyòwas won by Tim Nugent with 167-168-160. ñMr. Inconsistencyòwas won by Adam Wallace with 154 followed by a pair of 212's. How do Dey do dat? Opposing Kirt's series on Lane 19, on Lane 20 the high game shot was 168. A former league secretary asked if a 204 handicap game beats a blind?

WEEK 3 The highlight of the week is Transportation jumping into first place from fourth with 28 points. One of the best parts of the week was NO BLINDS. The 50/50 was won by Ron Black. Achievements: CLEAN Game by Greg Mueller (201). Other ñachievementsò: ñMr. Consistencyòwas won by Charlie Ernst who shot 125-128-123. ñMr. Inconsistencyòwas won by Kirt Ervin with a 532 series, his lowest ever in the league, when compared to the series in week 2: we guess Kirt's liking of Tropicana has waned a bit. Kent Burgess challenged "Inconsistency" with a 234 following a pair of 169's. Marie broke the Shot Club "tooter" so she won't be "horny" from now on. How do Dey do dat? Transportation broke Lane 19 while celebrating the return of Ramin, but they really liked the move to 25-26, especially Ramin with a 606 series. Jeff B. was wearing a shirt witha name patch that said "Ryan" so he was asked if Ryan was wearing a "Jeff" shirt.

WEEK 4 The highlight of the week is Energy claiming frist place, but they tried to avoid it by incorrectly giving away one point on an error in addition of a handicap game score. One of the best parts of the week was NO BLINDS. The 50/50 was won by Russ Hoffmann. Achievements: CLEAN Games were shot by Mike Borgard (223); Wade Williams (213); & Dennis Hobbs (199). Other notables: Janine P. picks the 6-8-10 but leaves the 7 in a difficult 4-pin split. Other ñachievementsò: DURNEY (honorary) - Mark Kuhlman throws a gutter ball, then a 3-count following a 4-bagger in game 1, frame 10. ñMr. Consistencyòwas shared by Jay Kniker who shot 153-157-159, and Brian Snelson with 144-145-147 & he won all those games. ñMr. Inconsistencyòwas won by Mike Borgard with 133 preceeding his 223. How do Dey do dat? Heating scores only 6 strikes for all 3 games; their high game was only 128 but they still managed to get 10 points.

WEEK 5 The highlight of the week is Aero-Lectrical now making it to first place with 27 points. There were NO BLINDS. The 50/50 was won by Kirt Ervin. Achievements: CLEAN Games shot by Kent Bugess (233); Tim Nugent (215); & Tim Tobin (204). Other notables: Tom Baker scores a 234 and 622. John Bryant has a 214 game & 533 series (312 & 827 handicap), helping Water to the highest game so far, a 1014. In the Splits arena: Janine P. picks the 5-7 two frames in a row!!; Ken Busch picks a 3-6-7-10 & 2-5-7; Greg Mueller picks a 4-7-10; John Woodson picks a 4-5-7. ñMr. Consistencyòwas won by team County who shot game 3 scores 122-127-130-128 (lost them all). ñMr. Inconsistencyòwas shared by Ron Black with 128 following 226; Brad Calzone with 214-215-144; & Kent Burgess with 144 following his 233. How do Dey do dat? On this Position Night, Research bowls Atomic for the second time; Research has won 55 points from Atomic in two matches but only a total of 26 in the other 3 weeks.

WEEK 6 The highlight of the week is Research getting 28 points (not from Atomic) and surging up to third from eighth in 2 weeks. Mike Borgard shoots 201-227-221-649. The 50/50 was won by Ken Busch. Achievements: CLEAN Games shot by Kirt Ervin (242); Phil Jozwiak (227); & Greg Mueller (226). Other notables: Marie Collins picks a 2-7-9 split; Tim Tobin scores a 600 series with a 224 game that was 74 in the fifth frame and he "went off the sheet" with strikes. Other ñachievementsò: DURNEY - Tom Baker in game 2, frame 9. ñMr. Consistencyòwas won by team Research who shot 909-911-911. ñMr. Inconsistencyòwas won by Phil Jozwiak with 148 first game and ending with his 227. How do Dey do dat? Brad Trotter loses 3 points to Noelle Gaspard who had a series averaging less than 90 pins per game. Mary Koeller tried to claim a 5-7-10 but was called out by others who correctly saw it as a 5-7-9 with the 9 pin moved over to the right.

WEEK 7 The highlight of the week is every match being swept by one of the two teams, 4 on the left lane and only one on the right lane. Research gets 31 points but stays in third place. Adam Wallace scores 243 and 641. Wade Wiiliams shoots 234 and 644. The 50/50 was won by Marie Collins. Achievements: CLEAN Games shot by Jay Kniker (220); Adam Wallace (212); & Dennis Hobbs (208). Other notables: Marty Koeller picks 3 splits in a 204 game. Bill Clarke picks the 2-5-7 split. Jon Derner picks the 6-7-9-10 but leaves the 4-pin in the "Greek Church" split. Other ñachievementsò: ñMr. Consistencyòwas shared by team Structural with handicap indvidual series of 705-714-700-719; & team Transportation who shot scratch individual series of 467-463-469-461 and also scored exactly 35 pins less in their team handicap game #2 than game #1 & 35 pins less in game #3 than game #2. ñMr. Inconsistencyòwas won by Tony Augustine with 127 followed by 224. How do Dey do dat? Tim Nugent sweeps Kirt Ervin by bowling a higher scratch series by 47 pins as Kirt sets a new low (513) for his career in this league.

WEEK 8 The highlight of the week is Research getting 28 points, sweeping their match without a game over 160, and leap-frogging 2 teams to go into first place. There were NO BLINDS. The 50/50 was won by Mike Wheeler. Achievements: CLEAN Games shot by Kirt Ervin (278 & 237 for a 709 series); Wade Williams (236); Phil Jozwiak & Mike Augustine (211). Other notables: Atomic scores an 826 scratch game. Other ñachievementsò: DURNEYÕs - Greg Lauber in game 1, frame 10; and Greg Mueller in game 3, frame 7 which allowed his CLEAN game of 191. ñMr. Consistencyòwas won by Brad Trotter who had his game 2 with 8 frames of 7-count on his first ball. ñMr. Inconsistencyòwas won by Tony Augustine (a 2-peat) with 125 following by 205. How do Dey do dat? Ramin Ashrafzader scores 185 in game 1 with 7 strikes but no spares (sorta clean?). Heating shoots only one game over 140 but still gets 20 points from Areo-Lectrical.

WEEK 9 New COVID regulations by St. Louis County strike! Research and Water decide to go "Absent" and sit out a while, and Tropicana closes their bar but continues to serve all drinks from the food counter. The league agrees to continue with a 10-team schedule for the rest of the first half and have the teams matched against an Absent team pit their scores againt 4 Blinds. Any points "lost" are not won by the Absent team but become "unearned." We start using a "dark" pair between every match to provide more distance between bowlers. Being the second position night, Aero-Lectrical faces Reseasch and gets 31 points to reclaim first place. The 50/50 was not held as the captain of the responsible team made a generous donation instead. Achievements: CLEAN Games shot by Kirt Ervin (269 [a NO-TAP 300] & 257); Greg Mueller (250); Bill Clarke (222, his only misses for the series were 4 splits); & Wade Williams (208). Other notables: Aero-Lectrical scores an 826 scratch game, also a new league high 1048 game, with Phil shooting 243. Atomic gets scratch games 848-823-852 for a 2523 scratch series, the league's highest for the season. Other ñachievementsò: Ken Munder had 9 splits for the night, more than 3 other whole teams. ñMr. Consistencyòwas shared by Wade Williams with 212-208-210=630; and Christian Benavides who shot 150-151-160 and won his 3 games versus the Absentee by 1 pin, 2 pins and 10 pins. ñMr. Inconsistencyòwas won by Kirt Ervin with 172 before his 269. How do Dey do dat? Team Atomic bowled against 2 teams twice in the half so far, shooting their first and thid high series versus Mechanical for 49 points total in the 2 matches, but only getting 9 points total from Research in 2 matches. It's obvious that Atomic is "skeered" by some.

WEEK 10 The highlight of the week is Heating getting 30 points from Atomic and contining their surge toward the top with now a total of 103 points in 4 weeks. The 50/50 was won by Jerry Schwalbe. Achievements: CLEAN Games shot by Kirt Ervin (268 [NO-TAP 300] & 231); Phil Jozwiak (226 [NO-TAP 300]); & Tom Baker (219). Other notables: Ken Munder picks a 3-9-10 split. Other ñachievementsò: (Faux) DURNEY - Tom Coleman in game 1 with 3 frames: a strike, followed by a 1-count and gutter ball, then a spare. ñMr. Consistencyòwas shared by Jay Kniker who shot 175-185-180 and Ken Munder with 177-184-186. ñMr. Inconsistencyòwas won again by Kirt Ervin with 176 between his 268 and 231 games. How do Dey do dat? Marie Collins has 6 frames in a row in game 1 with a first ball 9-count and 15 total for her series, but one one strike. Atomic continues their trend history by averaging only 10 points per week for 8 matches but getting 24.5 points per week versus Mechanical for 2 weeks, so they slip into 9th place.

WEEK 11 The highlight of the week is Jay Kniker leaving the first 5-7-10 of the season, BUT, he is NOT in the Jackpot! Aero-Lectrical extends their first place lead, setting up a showdown with Heating next week. The 50/50 was won by Lisa Douglas. Achievements: CLEAN Games shot by Mike Augustine (235); Ken Munder (232); Tim Nugent (220); Wade Williams (212 [612 series]); & Phil Jozwiak (205). Other notables: Mike Borgard shoots 256 (one miss but a NO-TAP 300) & 608. Other ñachievementsò: ñMr. Consistencyòwas won by Marty Koeller who shot 157-159-152. ñMr. Inconsistencyòwas won by Mike Augustine with 143 following his 235. How do Dey do dat? On Heating, Marty gets 11 strikes for his night but the other 3 bowlers only make 7 strikes total with Paul getting none. For new lows versus an Absent team, Aero-Lectrical gets swept in game 3 and Transportation only gets 20 points.

WEEK 12 The highlight of the week is Heating coming from far behind to sweep Aero-Lectrical for 26 points and claim first place for the half. Paul, being the wise old Captain, sits out and lets others do their thing. A day later Paul sent a message to Phil thanking Phil for "all his help"; we can only imagine what Paul really meant. There were NO BLINDS. The 50/50 was not held as the captain of the responsible team made a generous donation instead. Achievements: CLEAN Games shot by Mike Augustine (244); & John Westermayer (235 & 207). Other notables: Wade Williams shoots 247-211-268-726, getting 8 strikes in game 1, 11 strikes in game 3 and one miss each game but still both were a NO-TAP 300. Other ñachievementsò: ñMr. Consistencyòwas won by Dennis Hobbs who shot 129-126-127. ñMr. Inconsistencyò was won by Don Posey with 102 to start and 220 to end. How do Dey do dat? Mechanical gets 30 points from an Absent team and leap-frogs 3 teams up into 6th place. For more new lows versus an Absent team, on Structural, Tim Tobin gets swept and Dave Yates only wins one game by a single pin. In the end, the two Absent teams were relegated to 9th and 10th.

WEEK 13 The first week of the second half begins with 2 teams still Absent and only 8 teams, which agree to go to an 8-team schedule, so there will be no more matches against an Absent team. Heating contines winning ways with 30 points to stay in first place. There were NO BLINDS. The 50/50 was won by Brian Snelson. Achievements: CLEAN Games shot by Brad Calzone (238); Tim Tobin (207); & Mike Borgard (206). Other notables: Atomic scores a scratch game of 850 and series of 2467. Mechanical shoots the new high team series, 2896. Kirt E. has 255 &668; Brad C. adds a 221 & 652 series; Wade W. gets 424 & 633. Ken Munder picks a 3-6-7-10 split. Other ñachievementsò ñMr. Consistencyòwas shared by John Westermayer who shot 187-187-184 and Christian Benavides who had 8 first ball 9-counts in game 3, but no strikes. ñMr. Inconsistencyòwas shared by 2 from Aero-Lectrical, Brian Snelson with an opener of 181 and last game of 82 and Don Posey whose game 1 was 199 and game 3 was 113. How do Dey do dat? Noelle Gaspard shoots all 3 games under 100 but still takes 3 points from Jay Kniker.

WEEK 14 The highlight of the week is Mechanical getting just enough to slide into first place, starting the back-and-forth second half battles with Heating and Energy, who took 31 points to go from eighth to third. One of the best parts of the week again was NO BLINDS, helped by three SUBS who showed up to bowl. The 50/50 was not held as the captain of the responsible team made a generous donation instead. Other notables: John Westermayer scores the only 600, a 601 series. Phil Jozwiak suffered his first bowling injury ever, a bruised arm muscle that might keep him out a few weeks. Achievements: CLEAN Games shot by Ken Busch (213); Wade Williams (207); & Kirt Ervin (203). Other ñachievementsò ñMr. Consistencyòwas shared by Jon Derner who shot 156-156-154, and Dennis Hobbs who scored 161-162-156. ñMr. Inconsistencyòwas won by the WHOLE LEAGUE, with an overall game average of 871 versus 900 a week ago. How do Dey do dat? Team ATOMIC, with the same 4 highest players, shoots a 2403 handicap series with only 2 of 4 scratch series over 500, which is considerably lower than their 2467 scratch series of the previous week.

WEEK 15 The highlight of the week is Heating surging back into first place, whipping Mechanical head-to-head. There was 2/3 of a BLIND, as L.D. "forgot" the league's starting time and showed up for the third game. The 50/50 was won by Tracy Hill. Achievements: CLEAN Games shot by Wade Williams (242 [635 series]); & Tom Ellegood (227). Other ñachievementsò DURNEY - Ken Busch in game 1, frame 2 (but he picks a 5-7 split later). ñMr. Consistencyòwas won by Noelle Gaspard who shot 96-103-98. ñMr. Inconsistencyòwas won by Marty Koeller with 113 following a 203. How do Dey do dat? Mechanical scores the second highest team series of the night, but gets the fewest points. Don Posey doesn't bowl a game over 150 but still takes 3 points from Tom Baker. Team Transportation leaves 21 splits for the night, but picks only 2.

WEEK 16 The highlight of the week is ATOMIC shooting the season high scratch game, 855. Heating maintains first place but the lead narrows. There were NO BLINDS. The 50/50 was won by Ron Black, his second one of the season. Achievements: A total CLEAN NIGHT was shot by Kirt Ervin (227-227-217-671); and other games by Dave Yates (248 [a NO-TAP 300]); & Wade Williams (246). Other notables: John Woodson picks a 3-9-10 split the "hard" left-side way; Brad Calzone picks a 2-4-10. Other ñachievementsò ñMr. Consistencyòwas won by Kirt, but Greg Mueller was a close second, scoring 175-180-175. ñMr. Inconsistencyòwas claimed by Ramin A. with 145 followed by 232. How do Dey do dat? Team County leaves 21 splits for their series but picks only 2.

WEEK 17 The highlight of the week is Mechanical beating Heating on the first position night of the half to go into first place. Keith Konradi get 4 points to surge into the lead for MVB, never relinquishing first place for the rest of the season. Marie Collins shoots a 204 game and the "super-sub" leads everone else on Transportation with her 498 series. One of the best parts of the week once more is NO BLINDS. The 50/50 was won by Janine P., her second win of the year. Achievements: The only CLEAN Game shot by Ron Black (223). Other ñachievementsò ñMr. Consistencyòwas won by Brad Calzone who shot 183-200-200. ñMr. Inconsistencyòwas shared by Tim Tobin with 116 followed by 189, and County with team handicap games of 915-800-992. How do Dey do dat? Don Posey has only 1 game aver 160 but doesn't lose any games and takes 3 points from Ramin A. with 2 games being ties; in fact, there were 2 other individual tied games and one tied series. There were no 600 series (when has THAT happened last?) Lane conditions continue to degrade since the start of 2021.

WEEK 18 The highlight of the week Marie Collins leaving the 5-7-10 in game 1 on lane 23, and she collects the Jackpot, the first in 2 years! Another bonus is improved lane conditions resulting from the league asking Tropicana to revise their oiling pattern to #5 from the previous #4. Heating returns to first place with 28 points; Marty Koeller has a 233 game 1. Once again there were NO BLINDS because of SUBS showing up to bowl. The 50/50 was won by John Woodson. Achievements: CLEAN Games shot by Wade Williams (226 [641 series]); Kirt Ervin (224); Brad Calzone (209); Mike Augustine (195), & Nick Guetterman (187 [9 spares & 1 strike]). Other notables: Marty Koeller rollls the night's high game, 233. Phil Jozwiak returns with his newly-healed right arm. Other ñachievementsò ñMr. Consistencyòwas won by Kirt E who shot 224-200-216 with all 9-counts or strikes except 3 frames. ñMr. Inconsistencyòwas won by Tim Nugent with 132 following a pair of 209's. How do Dey do dat? Lisa Douglas has not game over 110 but takes all 4 points fro Tracy Hill. Dotty Kuhlmann starts game 1 with 6 consecutive first ball 7-counts, gets 2 more in that game, but none the rest of the night.

WEEK 19 The highlight of the week is much better scoring continuing in the second week of "more oil" lane conditioning. Energy gets to third place to add a new challenge to the top 2 teams. There were NO BLINDS. The 50/50 was won by Ken Busch, his second one this season, who also picks a 2-4-10 split in game 1, a 1-2-7-10 "washout" in game 2, and 2 "baby" splits in the 9th and 10th of game 3 to win by 10. Achievements: A total CLEAN Series was shot by Kirt Ervin (246-236-236 = 712). Other CLEAN games: Wade Williams (216 [also had a 234 & 633 series]); Jay Kniker (222); Russ Hoffmann (211); Mark Kuhlman (208); & Phil Jozwiak (198). Other notables: Janine Prost-Domasky shoots a rare TRIPLICATE 127, all slightly below her average, but still wins 3 points Other ñachievementsò ñMr. Consistencyòwas won by Kirt, who had only 2 frames with a first ball count besides a strike or 9. ñMr. Inconsistencyòwas won by Ken Munder with 156 followed by 233. How do Dey do dat? K.M.'s 233 was with 10 strikes and 2 splits. Tim Nugent scores 211 with 7 strikes, 2 splits, and 1 miss.

WEEK 20 The highlight of the week is Mechanical getting back barely to first place. One of the best parts of the week was NO BLINDS. The 50/50 was won by Greg Mueller. In the MVB race, the top 2 went head-to-head and Keith Konradi swept Nick Guetterman for 4 points, mostly cementing the top place for the season. Achievements: CLEAN Game shot by Kirt Ervin (237 [a NO-TAP 300]). Other notables: Wade Williams shoots 203-225-245 = 673, and although none of the games were clean, the 2nd one was a NO-TAP 300. Other ñachievementsò ñMr. Consistencyòwas won by Ramin A. who shot 179-184-177. ñMr. Inconsistencyòwas won by Greg Mueller with 125 in game 3 after his 212 in game 1. For the second time this season a 5-7-10 was left by someone NOT in the jackpot, Noelle Gaspard in game 3 on lane 20. For 2 others in the jackpot: John Westermayer thought he left the 5-7-10 in game 2 on lane 12, but the 10 fell late just as he was starting to celebrate; Ken Munder actually left it, but in practice, and the President wouldn't bite on nefarious questions as to whether shadow balls were officially part of the league. How do Dey do dat? For extreme splits: Heating left 23 on the night and picked only 4 of the splits; Aero-Lectrical was a close second with 20 splits, and also picked 4 of theirs, 3 of the picks by Tracy Hill.

WEEK 21 The highlight of the week is team Water returning to bowling for the last 4 weeks of the season, and although they are not eligible for placing in the standings, they will earn points bowling against a team's scores they draw at random, and anything else they can qualify for. Mechanical and Heating oppose each other in the second position night of the half, with Mechanical getting 21 points to lengthen the lead, and Heating slipping back into third place as Energy gets 28 points to sneak into second. There were NO BLINDS. The 50/50 was not held as the captain of the responsible team made a generous donation instead. Achievements: CLEAN Games shot by Brad Calzone (231); Kirt Ervin (226 & 215 [664 series]); & Ramin A. (201). Other ñachievementsò ñMr. Consistencyòwas won by Janine P. who shot 143-147-141. ñMr. Inconsistencyòwas shared by Jerry Schwalbe with 124 to start and 201 to end; and Mike Augustine had a 153 followng a 228. How do Dey do dat? Nick Guetterman bowls only 1 game over 140 but sweeps all 4 points from Tony Augustine. Ramin A., in game 3, leaves 6 splits and picks half of them 3 frames in a row.

WEEK 22 The highlight of the week is Energy scoring 28 points (for the 2nd week in a row) to tie Mechanical for first place and "cooling off' team Heating. Once again, thanks to 3 faithful subs, there were NO BLINDS. The 50/50 was won by Mike Borgard. Achievements: CLEAN Games shot by Kirt Ervin (228 & 226 [both are NO-TAP 300]); Phil Jozwiak (226); & Jay Kniker (215). Other notables: Don Posey shoots 221. For splits: Jim Hammond picks a 2-7-10; Marie Collins leaves the 7-8-10 (nice break on the 9); Mike Borgard picks a 1-2-4-6-10 "washout". Other ñachievementsò: DURNEY (a near miss) - Ramin A. in game 1, frame 10 posts a gutter ball and 9-count following a Hambone (4 strikes). ñMr. Consistencyòwas won by team Mechanical with games of 898-892-889. ñMr. Inconsistencyòwas won by Tony Augustine with 134 game 3 following his 216 in game 1. How do Dey do dat? Brad Trotter doesn't shoot a game over 145 but still sweeps all 4 points from Wade Williams. Aero-Lectrical leaves 23 splits on the night but picks only 3. "Super-sub" Marie Collins gets 3 of 4 points for Heating.

WEEK 23 The highlight of the week is Heating trying to make the race closer by getting 30.5 points while Mechanical mananges a small lead over Energy. There were NO BLINDS once more because of the subs who are faithful: Marie Collins, Bill Clarke, and Dave Herberger. The 50/50 was won by Greg Mueller, his second win in the last 4 weeks and the third double win of the season. Achievements: one more CLEAN NIGHT was shot by Kirt Ervin (208-218-224 = 650), as he had two more NO-TAP 300 games; other CLEAN games by Jay Kniker (202) & Tom Ellegood (191). Notable splits: Tom Ellegood picks the 6-7-10 in his clean game; Ron Black picks the split he claimed was a 7 1/2-10 as the 8-pin was moved over. Other ñachievementsò: ñMr. Consistencyòwas won by Bill Clarke who shot 182-186-179. ñMr. Inconsistencyòwas easily taken by Brad Calzone with 144 following 243. How do Dey do dat? For the second week in a row, "super-sub" Marie Collins stars for the team she bowls with, this week being Transportation as she is the only one over average for both teams; but the night is not lost as Transportation takes 22 points from Structural with both teams shooting all games under average.

WEEK 24 The highlight of the week is Mechanical besting Energy 21 to 11 to win the second half championship, especially significant after Energy's first-game win by 79 pins. Jeff Bentrup leaves a 5-7-10 in game 2 on lane 8 but is NOT in the jackpot. Again, there were NO BLINDS. The 50/50 was not held as the Secretary made a generous donation instead, making the total collection for the season $818 going to the Ed Sweeny Scholarship Fund, which is $34 per night, a great result with various amounts of bowlers present per night from 32 to 40. Achievements: A CLEAN Game, a rare DUTCH 200, was shot by Kirt Ervin (plus a clean 223); Brad Calzone (227); & Mike Augustine (199 & 201). Other notables: Marty Koeller scores a 242 (303 handicap) to win his 4th weekly high-single-over-average award, no doubt a league record. Keith Konradi stays in first place to win MVB. Other ñachievementsò: ñMr. Consistencyò was won by Ken Busch who shot 169-169-178. ñMr. Inconsistencyòwas won by Marty Koeller with 136 followed by his 242 (a true "Century Award"). How do Dey do dat? For the second week in a row, Transportation scores mostly under average but still wins 21.5 points from County to stick County with 8th place; Transportation moves ahead of Atomic, too.

WEEK 25
Roll-off The highlight of the week is Mechanical burying Heating all 3 games of the roll-off to win the LEAGUE CHAMPIONSHIP! One of the best parts of the week was 38 bowlers showing up for Sweepstakes, which is 2 more than a four-per-team average. This being the last week to score for awards, (who else) Kirt Ervin wins 3 Individual Awards, 215.43 high average, 300 high game, and 802 high series; instead of another plaque, he donates the cost to the Ed Sweeney Scholarship Fund. Notables: Wade Williams shoots 213-227-235 = 675 to claim all the Scratch Jackpots. Noelle Gaspard has the stellar Handicap Series, 733. Other ñachievementsò: Three real DURNEY's (most of any week) - Ken Munder in game 2, frame 10 following a "Hambone"; Tim Nugent in game 2, frame 2; and John Kuhlmann in game 2, frame 7. There were 35 in the optional Handicap Jackpot and 15 in the Scratch Jackpot, a great result from 38 bowlers.
