## January Membership Spotlight

**Jeremiah King, P.E.**  
**Civil Engineering**  
**Construction Management**

The Engineers' Club of St. Louis has begun recognizing one member a month who has made a positive impact on the Club and its members. We would like to recognize President Jeremiah King, P.E., as the January member spotlight.

Jeremiah King graduated from the University of Missouri-Rolla (Missouri S&T) in 2006 with a Civil Engineering degree with a focus in Construction Management. After graduation, President King began working with Brinkmann Constructors and is now a Project Manager and has been with the company for 14 years. When he isn't working hard at Brinkmann, he volunteers as Cubmaster for his sons' Cub Scout Pack and helps coaching the different sports his three sons participate in.

President King and his wife, Maria King, who is also a practicing Civil Engineer have been members of the Engineers' Club since 2006. Jeremiah has sat on the Engineers' Club Membership Committee (2014-2016) and participated in the Explorer Post Committee (2011-2012). He has been a member of the Executive Board of Directors for the past four years and is now the Engineers' Club President (2020/2021). Jeremiah has been the recipient of the Miner Alumni Association St. Louis Section Frank H. Mackaman Outstanding Section Volunteer Award, Sigma Tau Gamma Alpha Omega Chapter Distinguished Young Alumni Award and the ASCE St. Louis Section Young Engineer Award.

What does the Engineers' Club of St. Louis mean to you?

"I see the Engineers' Club as a gathering place to meet and socialize with fellow engineers outside of a work environment through Fellowship Night or any of the various other activities the Club hosts." –  
Jeremiah King, P.E.
